WELFARE & COUNSELLING SERVICES TEAM

PSE 54627 Elly PRIOR works within the Welfare and Counselling Services Team.

This team started life in its present form in the last year. The year has been a baptism of fire through a series of challenges that the team has risen to with great composure. The team are passionate and enthusiastic about their work and dedicated to helping their numerous clients to stabilise in crisis and learn to grow and develop.

The whole team work in an atmosphere of confidentiality and thus, it is hard for others to see the intensity and sensitivity of what they do on a daily basis. This is a silent world where any thanks the team get will go unheard by the larger organisation. The team are exemplars of their chosen profession, great ambassadors for counselling, Traumatic Risk Management and dealing with vulnerable roles and worthy of recognition for their commitment.
